SNOWBALLS FLEW IN THIRDS.

First Hot Snowstorm in the Memory of Oldtimers.

San Francisco, March 2.—San Francisco had an attack of much madness yesterday, when the first real snowstorm in the memory of the oldest inhabitant whitened the higher hills, and the roofs and streets of the Mission district. Youngsters who had never before seen snow leading pedestrians and vehicles

tempted the streets in hands, some having no precedent to go by, the snow balls went too far and several arrests were made on account of broken car windows. Nearly every car in the Mission had one or more pieces, and several pedestrians were cut by flying balls. Bay City reported a snowfall ranging up to two inches. San Jose, Sacramento and Fresno also shared in the novelty, but the storm was confined mainly to the summit.

The perfect sound-reproduction

which established the supremacy of the Edison Phonograph lies in the point of contact between the Phonograph and the Record—the sapphire reproducing point.

This is the point that conveys the sound from the Record to the audience. And right here is the secret, the perfect lifelike tone of the Edison instead of a metallic, nasal tone.

KID MCCOY STATES HE WILL ENTER RING

Former Well-known Heavyweight Would Like to Fight Johnson—Is in the Condition to Take a Chance at Big Fights.

New York, March 3.—In reference to his proposed return to the ring, Kid McCoy says:

"When about three months ago, I announced my intention of coming back, nearly everybody laughed at me. I said only increased my determination to show the people they were wrong, just as they have been wrong about me many times before. I think that I have succeeded. More than I feel now. I am willing to meet on any day, my class in the ring. Jack Johnson is one man I want to fight and I have money to put for a match."

"However, most of the American people are from Missouri, and they have to be shown. Therefore, I am ready to wait until they are ready to convince the public that Kid McCoy is sincere and has come back to win ready to take on the next best man in the heavyweight class, namely, Al Kaufman. I will sign articles to fight any number of people, but I will wait until the next sixty days, and then I will fight the best man in the class. That is now sure I am that I am all ready back."

"All I want is a chance. I have studied the career of Johnson thoroughly, and honestly, I can't count myself that any one of them has a real champion."

"I am now in the hands of Kid McCoy but still within memory's reach this statement before the public. I am a real dreamer," still, if Selby really would like to fight, "on the dance."

MANITOBA CITIES WANT TO ENTER FIELD

Now that chances of getting into international league are not very good, cities of Manitoba and Western Canada League are determined to do better.

Now that the negotiations between Winnipeg, Brandon and the American club have been broken off, the cities of Manitoba are determined to do better. They are now willing to enter an association with the American cities, and will be represented at the meeting of the American cities to be held today in Regina. It is expected that a return hockey match will be played between the Strathcona and the city of Strathcona next week.

NON RUSTABLE

Corset

Stay Style and Corset Comfort

The non-rustable D & A, model No. 636, here illustrated, has solved the corset problem for many women. It has the long flowing lines demanded by the mode, and produces a perfect figure. At the same time it is hygienic, comfortable, and sells at the very low price of \$2.00. An imported corset of equal value cannot be bought for less than \$3.00.

Why pay such high prices on imported corsets, when it is possible to obtain full corset value for your money by getting a D & A? The D & A embodies the latest ideas from Paris, and in its unsurpassed superiority to many styles at double the price.

GARNISHMENT OF CIVIL SERVANTS WAGES

Member in House of Commons Claims That Such is Unfair to Creditors and Deported by Sir Allan Aylesworth.

Ottawa, March 3.—This was one of the duller days of the session in the Commons. After a little preliminary business had been disposed of, A. M. Bouquard, St. Hyacinthe, discussed the question of indemnity of civil servants from garnishment of wages. He claimed that it was unfair to creditors and asked the Government to amend the civil service act accordingly.

Several speakers supported this view but Sir Allan Aylesworth contended that it was in the public interest that the best of the civil servants should be kept out of public service and this could not be done if they were to be harassed by the bills of their creditors. He had no sympathy either with the creditors for they were aware of the law.

A. E. Meighan, Postage in Prairie, contended that the argument of the Minister of Justice lacked common sense. W. B. Nantel, Terrebonne, gave notice that on Monday, P. E. Blouin, Champlain, would bring a resolution of the House matters affecting the House. He had no sympathy either with the creditors for they were aware of the law.

Where "Parkdale" is Situated

Parkdale is the Northeast quarter of Sec. 20, Range 24, Tp. 32, west of the 4th principal meridian. On the ancient maps of Strathcona it was known as the Gainer property. Six years ago 60 acres of the northeast corner of the quarter was subdivided and placed on the market. This part of the property is now fully occupied, many comfortable residences having been built thereon. Since then, no Parkdale lots have been put on the market, notwithstanding that the residential district has now spread far beyond the property. The property now offered for sale is the remaining 100 acres to the south and west of the original subdivision.

"Distinctly Inside"

This property is bounded on the east by Second Street, west, the main thoroughfare to the fertile and populous country to the south of the city. Its western boundary is Sixth Street, west, its northern boundary Sixth Avenue, south, and its southern boundary Fourteenth Avenue south.

All streets in Strathcona number from Main Street, east and west, and avenues from Whyte Avenue, north and south.

The numbers of the streets and avenues which form the boundaries of this property is self-evident proof that Parkdale is distinctly inside property.

Admirably Situated

As a residential property Parkdale is admirably situated. Whyte Avenue, the main business thoroughfare of Strathcona, paved, electric lighted, with a modern street railway service is only five blocks from the closest corner of Parkdale. The new Strathcona post office, which the Dominion Government is building at a probable cost of \$100,000, is scarcely ten minutes' walk from the lots offered for sale.

All modern improvements will be available for Parkdale immediately the property is occupied. Water, light, sewer and telephone connections are already in Strathcona Street and can be brought in to the Parkdale subdivision without delay by petition of the ratepayers who will establish houses there.

Accessible to Edmonton

From the main business centre of Edmonton, when the new high level bridge has been completed, which will be within a year, Parkdale will be scarcely more than ten minutes' ride by street car, the total distance being five miles. By arrangement between the cities of Edmonton and Strathcona a five-cent fare will carry a passenger from any point in Strathcona to any point in Edmonton.

The wonderful development and expansion of the city of Edmonton which is already a cosmopolitan city, means that all the facilities and pleasures of a metropolitan centre are at your disposal.

Edmonton is fast becoming a sporting and theatrical centre of the west, is the place where parliament meets, is the social capital of the province and holds many special inducements to residents.

Residents in Parkdale will have the advantage of all the opportunities for pleasure, comfort and enjoyment offered by two modern cities, Edmonton and Strathcona.

Resolution Passed at Largely Attended Meeting Declaring Against Reciprocity.

Brockville, March 3.—"Be it resolved, that in the opinion of this meeting the proposed reciprocity arrangement will be a serious menace to the best interests of Canada and the British Empire and should be opposed by all true Canadians irrespective of party allegiance.

The foregoing was the substance of a resolution adopted at a largely attended mass meeting of the citizens of Brockville and surrounding district held tonight at the Victoria Hall and presided over by H. A. Stewart, K.C.

After an absence of little more than one hour the jury, in the trial of the

Company Let in June.

By June 15th the company was ready to let the contracts. No communication was sent to the plaintiffs on this date. On June 21st the contracts were let. The plaintiffs at this time were not provided with plant upon the spot to do the work. Uncertain whether they would get the contract they had been offered, the plaintiffs at this time reason it would have been impossible for them to do so. On this ground and on the ground that, as they claimed, the company had in April assumed the liability for the cost of the supplies, they refused the contract, which was awarded to Foley.
